ORDER APPROVING TARIFF

This matter came before the Tennessee Regulatory Authority (the "Authority") at the regularly scheduled Authority Conference held on June 8, 1999, for consideration of the tariff of BellSouth Telecommunications, Inc. ("BellSouth") to Introduce BellSouth Complete Choice for Business Package Service (the "Tariff"). The Tariff was originally filed with the Authority on May 7, 1999, with the proposed effective date of June 9, 1999.

Under BellSouth's Tariff, business customers can obtain an access line, touch-tone, calling features, listings and grouping service for one price. Subscribers to these optional packages will receive unlimited local calling within their respective local calling areas and \$.12 per minute toll rates for toll calls within the Local Access and Transport Area (LATA). The rates proposed by BellSouth under the Tariff are in excess of the long run incremental cost¹ of the service packages. BellSouth's Tariff was not opposed by any party.

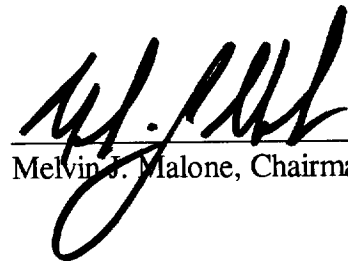

¹ In compiling its rates, BellSouth utilized the statewide average line costs which were included in its Permanent Price testimony in TRA Docket No.97-01262 and the long run incremental costs of the features.
